Commercial Invoicing

Create professional invoices that get paid faster

Grow your commercial business with modern laundry invoicing software. Cents gives you advanced tools to accept online and ACH payments, automate your follow-up, and provide a better client experience.

Invoice Creation
Instantly generate accurate, professional online invoices

- Personalize a customer-friendly template with your branding, business information, and custom line items
- Process orders in-store via POS, invoice from mobile or web
- Accept any form of payment - card, ACH, check, or cash
- Set up commercial accounts with custom pricing and terms
- Get notified when invoices are paid, overdue, or pending

Invoice Reminders
Automate follow-up and collection, so you'll stop chasing payments

- Online payments and flexible ways to pay speeds up collection
- Send reminders when invoices are overdue, sent, and paid
- Automatically send text and email follow-ups to past due accounts
- Send multiple invoices at once with batch invoicing

Reports & Dashboards
Detailed reports on every aspect of your commercial operation

- Run comprehensive reports on orders, customers, revenue, and more
- View your operation from a glance with real-time dashboards
- Complete control over pricing, with custom terms for each service and customer
- Know your commercial machine capacity with advanced processing

Invoice Creation
Make the right growth decisions

- Discover which businesses are your best commercial customers
- Increase order volume with custom product and service pricing tiers
- Manage your delivery business with a dedicated driver app and set private booking times for larger operations
- Sort and filter customers to create commercial marketing segments
